# T&E mobile

Enter and approve timesheets from any mobile phone or tablet\* :  
Android, Apple, BlackBerry and Windows Mobile 7

**Sample Image:**  
Android powered timesheet entry, review & approval for employees and supervisors

Powered by CP mobile

## T&E mobile Overview

**Access:** Any smart device with Internet access can utilize T&E mobile. Secure access and an intuitive interface allow for fast, accurate and safe data entry.

### Features:

- Secure log in
- Access open and recent timesheets
- Select Projects, Accounts, Organizations, Labor Categories, Pay Types, Labor Locations, UDTs, etc.
- Managers access employees and review summary dashboard of timesheet data
- Managers review and approve employee timesheets

### Deployment Framework:

Server – Microsoft Server OS, IIS, SQL Server Database

Mobile Devices – Easy to download app for Apple, Android, BlackBerry and Windows Mobile

\*T&E mobile works on all major mobile devices, but requires current versions of certain mobile operating systems.
